

HEIGHT ADJUSTABLE WORKSTATION

DECTRON
WWW.DECTRONUSA.COM | INFO@DECTRONUSA.COM

Take your Ergonomics program to the next level with this Industry Tough Height Adjustable Workstation. Ideal for both assembly and manufacturing floors, this workstation provides over 18" of instant height adjustment at the push of a button. Driven by industry leading electric actuators, this unit was engineered to deliver smooth motion while providing a rigid and stable work surface when in any position. Smooth Glide Locking Casters keep this unit flexible and mobile when needed and lock into place when in use. Custom laser cut name plates, color choices and tabletop options are included to truly make this unit unique to your operation. Tall or small, our ergonomic workstation has got you covered!
